For decades, we've used EW Yost Co to manufacture and test many different items for us. They are open, polite, responsive, competent and deliver on time with no surprises. Their knowledge of available materials, machining methods, assembly and even re-design is first class. They have routinely held themselves to mil-spec standards for 50+ years. Like us, you should not hesitate to reach out to them for a quote or manufacturing guidance.

David C Bielecki
